### PROJECT A QUALITY IMAGE

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organisation. A choice of nine customised slogans can be loaded from memory cards and you can add your company name, greetings, slogans – even logos and photographs.

### MAKE LIGHT WORK OF LONG RUNS

The IJ-65 has an automatic feeder that allows you to process up to 135 letters a minute. A sealer will automatically close gummed envelopes, and you can add a conveyor-stacker to neatly collect your mail – saving even more time and boosting mailroom productivity.

### BETTER COST CONTROL

Instead of carrying postage costs as an overhead, the IJ-65 lets you allocate them to cost centres, with capabilities for up to 50 departments. Accounting records can be printed onto franking labels or through an external printer.

### THE SIMPLE SOLUTION TO ALL SIZED MAIL

The IJ-65 is designed to fit every mailing profile. It can interface with additional electronic scales to automatically calculate and apply correct postage to items weighing up to 30kg. A built-in label dispenser produces self-adhesive franked strips for posting larger items.

### EASY TO USE, WHATEVER THE JOB

Whether for a handful of envelopes or a big mailing run, the IJ-65's easy to read display and one-touch controls make operating easy. Long-lasting ink cartridges reduce cost-per-impression and can be replaced in seconds. And new postal rates can easily be uploaded from digital memory cards when required.

### UPGRADE TO MAILROOM CAPABILITIES

Linked to a folder inserter, the IJ-65 gives you all the advantages of a complete mailroom solution with continuous, ready to mail processing. It deals with your mail ten times faster than a staff member could, and can also be used for mailshots and other marketing activities.
