

IJ-75

DIGITAL FRANKING MACHINE

The Neopost IJ-75 comes with all the speed, technology and options to increase mailroom output and keep costs in check.

- Envelope processing speeds of up to 180 letters per minute
- Track expenditures for up to 200 departments
- Interface with a PC to export mailing data and reports

BETTER MAIL MANAGEMENT WITH ADVANCED ACCOUNTING

If you're looking for better control of your mailing expenditure, the IJ-75 makes it simple. Connect it to a PC equipped with Neopost's postage management software so you can track, allocate and analyse your postal costs by department, postal rates and time periods.

CREDIFON®. THE FAST, SIMPLE POSTAGE RE-CREDITING SYSTEM.

Many re-crediting systems are slow and complicated, often requiring long calls. The IJ-75 helps you avoid all that. Neopost's Credifon® system refills your machine with postage in just a few key strokes, getting you back to business in seconds – 24 hours a day, 365 days a year. Just dial the number, punch in your pin and key in the value. It couldn't be simpler!

Credifon® remote recrediting is operated by Neopost over a premium rate phone line charged at £1.50 per minute including VAT (£1.28 excluding VAT). Calls should last no more than 1 minute. You'll receive full and accurate account statements for your postage charges.

DIAGRAM SPACE OR RE-CREDITING SYSTEM LOGOTYPE (ACCORDING TO LOCAL NEEDS)

Dedicated space for UK PiP Paragraph or Services. Si meliora dies, ut vina, poemata reddit, scire velim, chartis pretium quotus arroget annus. Scriptor abhinc annos centum qui decidit, chartis pretium quotus arroget inter perfectos veteresque.

WE VALUE YOUR MAIL

IJ-75

VERSATILITY AT THE HEART OF YOUR MAILROOM

The Neopost IJ-75 combines speed, modularity and advanced technology to deliver a mailing solution that's simple and effective. It can be the hub of a sophisticated mailing system, or just a fast, robust franking machine for your mailroom. It handles walk-up mail as easily as high volume runs or mixed daily loads of letters or packages. With the IJ-75, you can configure a system that fits your mailing profile perfectly. Its modular accessories quickly and easily accommodate your needs as they grow or change – meaning you only pay for the capabilities you need.

The IJ-75 is simple to operate yet durable enough to stand up to the demands of the toughest environments.

MAXIMUM FLEXIBILITY IN HANDLING ENVELOPES

The IJ-75 handles envelopes as big as C4, in either portrait or landscape, which can be sealed or not according to your needs. Its high-capacity feeder has an adjustable side guide to hold your large stacks of mail in place, so high-volume, same-sized mailings are dealt with in minutes.

BETTER COST CONTROL

Instead of carrying postage costs as an overhead, the IJ-75 lets you allocate them to cost centres, with capabilities for up to 200 departments. Accounting records can be printed onto franking labels or through an external printer.

A WIDE CHOICE OF FEATURES FOR A TAILOR-MADE SOLUTION

Designed to fit every mailing profile, the IJ-75 can interface with additional scales to automatically calculate and apply correct postage to items weighing up to 30kg. Neopost's i-Weigh™ dynamic scale checks weight as items of up to 1kg pass to the machine, automatically and accurately adjusting the postal rate. A built-in label dispenser produces self-adhesive franked strips for posting larger items. A sealer will automatically close gummed envelopes, and you can add a conveyor-stacker to neatly collect your mail – saving even more time and boosting mailroom productivity.

Automatic feeder processes mail up to 16mm thick, in either portrait or landscape, and handles your mail at up to 10,800 envelopes per hour

Large, easy to read LCD display with user friendly menus and operator prompts

Automatic label dispenser stores and prints up to 70 labels, for swift and easy parcel post

The brush sealing system ensures a perfect envelope seal and cleans easily without a service call

Simple operation is aided by job memories which enable you to store regularly used settings, as well as automatic date change, eliminating postage waste

PROCESS UP TO 10,800 ENVELOPES PER HOUR

FEED AND SEAL MAIL UP TO 16MM THICK

PROGRAM UP TO 10 JOBS INTO MEMORY FOR ONE-TOUCH ACTIVATION

CONTROL AND ALLOCATE POSTAL COSTS FOR UP TO 200 ACCOUNTS

CONNECT TO A PC TO TRACK, ANALYSE AND MANAGE POSTAL EXPENDITURES

PROJECT A QUALITY IMAGE

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organisation. A choice of nine customised slogans can be loaded from memory cards and you can add your company name, greetings, slogans – even logos and photographs.

EASY TO USE, WHATEVER THE JOB

Whether for a handful of envelopes or a big mailing run, the IJ-75's easy to read display and one-touch controls make operating easy. Long-lasting ink cartridges reduce cost-per-impression and can be replaced in seconds. And new postal rates can easily be uploaded from digital memory cards when required.

INTEGRATES INTO YOUR MAILING SYSTEM

When linked to a folder inserter, the IJ-75 gives you all the advantages of a complete mailroom solution with continuous, ready to mail processing. It allows your mail to be folded, inserted, sealed, weighed and franked all in one automatic process, and is perfect for mailshots and other marketing activities.
