INTELLIGENT TECHNOLOGY THAT’S A PERFECT FIT FOR YOUR BUSINESS

The Neopost IJ-85 delivers high speed with low costs, transforming your mailing operation. It saves time and money, with lightning-fast mail processing and intelligent technology that helps make your mailroom more effective and productive. When you need speed, dependability and sophisticated mail management options, put the IJ-85 at the heart of your mailing system.

Built for environments where performance and versatility are a must, the IJ-85 gives you maximum performance with quiet operation in a high-speed, easy to use solution. Designed to grow with your needs, the IJ-85 is ultra-reliable and optimises productivity levels at your business.

MAXIMUM FLEXIBILITY IN HANDLING ENVELOPES

The IJ-85 handles envelopes as big as C4, in either portrait or landscape, which can be sealed or not according to your needs. Its high-capacity feeder has an adjustable side guide to hold your large stacks of mail in place, so high-volume, same-sized mailings are dealt with in minutes.

MODULARITY THAT MEETS YOUR NEEDS AS THEY EVOLVE

Designed to fit every mailing profile, the IJ-85 can interface with additional scales to automatically calculate and apply correct postage to items weighing up to 30kg. Neopost’s i-Weigh™ dynamic scale checks weight as items of up to 1kg pass to the machine, automatically and accurately adjusting the postal rate. A built-in label dispenser produces self-adhesive franked strips for posting larger items. A sealer will automatically close gummed envelopes, and you can add a conveyor-stacker to neatly collect your mail – saving even more time and boosting mailroom productivity.

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organisation. A choice of nine customised slogans can be loaded from memory cards and you can add your company name, greetings, slogans – even logos and photographs.

EASY TO USE, WHATEVER THE JOB

Whether for a handful of envelopes or a big mailing run, the IJ-85's easy to read display and one-touch controls make operating easy. Long-lasting ink cartridges reduce cost-per-impression and can be replaced in seconds. And new postal rates can easily be uploaded from digital memory cards when required.
